

taneously by all the necessary steps required to completely correct the unjust and unjustified consequences in Palestine which are the outgrowth of the Zionist-dictated United States foreign policy in Palestine since 1947. The leading friendly and unfriendly powers in Europe, Asia, Africa and the Middle East express the sentiment that the United States will deserve defeat in World War III, unless the United States now recognizes her sole responsibility, and takes immediate measures to make reparations for the unwarranted punishment inflicted upon the innocent and defenseless native Palestine population by the malicious United Nations so-called "recommendation" for the vicious so-called "partition" of Palestine in 1948. The leading nations of the civilized world today hold the United States solely responsible for that betrayal of every human right to "self-determination" under "free elections."

CORRUPT POLITICAL LEADERS BETRAYING NATION'S SECURITY

In consideration of fabulous financial benefits and powerful political advantages accruing to corrupt betrayers of public confidence, the prestige and the power of the United States was prostituted in United Nations to commit the most inhuman and unjustified international criminal act in all the recorded history of mankind, on behalf of the world-wide net-work of international Zionist conspirators. By that betrayal of international morality, the United States "sowed the wind" and must now "reap the whirlwind" in future international relations, unless the United States possesses sufficient character to repent, and exercises the necessary courage to atone for this sanguinary sin, while time still remains in which to do so. What other urge must the United States feel to wash from its hands bloody evidence of the "murder" of an innocent nation.

UNITED STATES SURVIVAL REQUIRES MOSLEM COOPERATION NOW

The extent to which the security of the United States is dependent upon the complete confidence and the gratuitous good-will of the 450,000,000 Moslem population in Africa, the Middle East and Asia will come as somewhat of a shock to the many persons in the United States who have never given any thought to this question. It is of vital importance to the security of the United States that they learn "the facts of life" in this connection before it is too late to be of any help. It is now conceded without reservation or equivocation by the foremost military strategists that the United States cannot possibly emerge the winner in any world conflict today without possessing the complete confidence and the gratuitous good-will of the 450,000,000 Moslem population in Africa, the Middle East and Asia, so vital today to our only defense, "massive retaliation."

Exclusively from the point of view of the successful defense of the United States against aggression by the Soviet Union in any form, the 450,000,000 Moslem population in Africa, the Middle East and Asia occupy territory which is of vital importance to the security and successful defense of the United States. The Moslem nations in Africa include Egypt, Algiers, Morocco, Tunisia, Libya and the Sudan. The Moslem nations in the middle East include Syria, Saudi-Arabia, Turkey, Iraq, the Kingdom of Jordan, the Kingdom of Yemen, and Lebanon it now seems. The Moslem nations in Asia include Iran, Pakistan, Afghanistan, and several dynamic sovereign states in southeast Asia, the 50,000,000 Moslems strategically situated in India, the 30,000,000 Moslems concentrated in a most strategic area in China, and the 72,000,000 Moslems of the island Republic of Indonesia. This broad strategic belt inhabited by 450,000,000 Moslems stretches without interruption across Africa, the Middle East and Asia along the extended and exposed long under-belly of the Soviet Union in Europe and Asia. A study of this "belt" on a geographic globe will emphasize the strategic importance of the area in Africa, the Middle East and Asia occupied by the 450,000,000 Moslem population, until recently this nation's very best friends.

"MASSIVE RETALIATION" DEFENSE DEMANDS MOSLEMS HELP U.S.A.

The strategic importance of the territory occupied by Moslem nations, for United States air-bases from which to launch "massive retaliation" against the Soviet Union, as the only effective defense against Soviet Union aggression, will serve more satisfactorily than any other known factor to discourage aggression by the Soviet Union, if the Soviet Union should consider aggression with the use of atomic and hydrogen bombs. With this strategy in prospect, the United States has already constructed for that purpose four of the most modern air-bases in the world in the Moslem state of Morocco at a cost of \$500,000,000 or more. For the same eventuality, the United States has constructed in the Moslem state of Saudi-Arabia the largest and most modern air-base of its kind in the world. United States military strategists are firmly convinced that the first line of defense for the United States against any form of aggression by the Soviet Union against the United States, or anywhere in the world, is the territory in Africa, the Middle East and Asia occupied by the 450,000,000 Moslem population, formerly our best friends.

MOSLEM CONFIDENCE AND GOOD-WILL OUR BEST DEFENSE

The complete confidence and the gratuitous good-will of the 450,000,000 Moslem population in Africa, the Middle East and Asia are vital to the security of the United States for another important consideration. Judging from present indications, the 450,000,000 Moslem population in that strategic area is not "for" the United States because the United States "masterminded" the malicious conspiracy for the vicious so-called "partition" of Palestine. In any possible conflict between the United States and the Soviet Union, the 450,000,000 Moslem population so essential for the security of the United States, may actually line themselves up "against" the United States. That probability at this moment seems quite possible. It is misleading to note with blind credulity the superficial expressions of nominal friendship by a few Moslem governments in that area now enjoying financial so-called "assistance," but actually bribery spent in the hope that the United States can thereby purchase their allegiance with "dollar diplomacy."

ZIONISM ENDED MOSLEM CONFIDENCE AND GOOD-WILL FOR U.S.A.

The Moslems have a proverb in Arabic which says, "The enemy of my enemy is my friend." If the 450,000,000 Moslem population in Africa, the Middle East and Asia decides it is to their best interest to regard the Soviet Union as their "friend", and that trend is gathering momentum each day according to the news from that area, and decides it to their best interest to regard the United States as their "enemy," of which there are signs confirming the possibility of that attitude, United States military bases in Africa, the Middle East and Asia will become worthless and useless to the United States. Sabotage by the 450,000,000 Moslem population in Africa, the Middle East and Asia can transform these military bases and air-fields into heaps of smoldering rubble within a few hours time. The Soviet Union is ready, willing and able to lend every necessary assistance to achieve that result when, as or if so called upon to supply that assistance, in the event of the outbreak of hostilities between the United States and the Soviet Union, thereby depriving the United States of the use of the only strategic air-bases for our "massive retaliation," our only effective defense

against certain defeat without creating a great United States air-fleet of 2,000 B52 intercontinental bombers, to be based in the United States. With access to the strategic air-bases in Africa, the Middle East and Asia, our present air-fleet is more effective for "massive retaliation," as our best defense, than the Soviet Union's new intercontinental bombers.

MOSLEM FRIENDSHIP WILL PREVENT SOVIET UNION AGGRESSION

"Massive retaliation" includes use of "guided missiles" and "ballistic missiles." "Guided missiles" must be "guided" by radar to their targets, but "ballistic missiles" are delivered to their targets like shells fired from long-range guns, without being "guided" along the way. "Ballistic missiles" with atomic and hydrogen war-heads can destroy every city in the Soviet Union from bases in Africa, the Middle East and Asia. The Soviet Union fears nothing more. If the Soviet Union is pulverized, communism all over the world will die like the branches of a tree when the tree is cut down. "Intercontinental ballistic missiles" do not yet exist, and they may never come into existence.

MOSLEM CONFIDENCE AND GOOD-WILL OUR VERY BEST DEFENSE

The 450,000,000 Moslem population in Africa, the Middle East and Asia can easily put armies totalling 45,000,000 men into the field. In World War II the United States put approximately 14,500,000 men into the armed forces, or 10% of the approximate total 150,000,000 population of the United States. As the sincere and loyal allies of the United States, the 450,000,000 Moslem population of Africa, the Middle East and Asia may possibly put 20% of their total population, or 90,000,000 men into their armies. Modern armies of 45,000,000-90,000,000 Moslems along the extended and exposed long under-belly of the Soviet Union will act as the greatest deterrent against aggression by the Soviet Union, and may be the only consideration which will restrain the Soviet Union.

MOSLEM CONFIDENCE AND GOOD-WILL CAN DETER SOVIET UNION

The Soviet Union is realistic enough to fully understand the threat to her existence of the 45,000,000-90,000,000 well-trained Moslem soldiers as allies of the United States, in the event of hostilities, concentrated along the Soviet Union's extended and exposed long under-belly in Europe and Asia. The Soviet Union will give very careful consideration to any form of intercontinental aggression against the United States for fear of inviting invasion of the Soviet Union by Moslem armies of such great size and strength stationed directly along her borders. In any world conflict, a friendly 450,000,000 Moslem population in Africa, the Middle East and Asia will prove the most decisive factor in victory for the United States in the event of Soviet Union aggression. It is imperative that the complete confidence and the gratuitous good-will of the 450,000,000 Moslem population in that strategic area is now retrieved. The very survival of this nation hinges upon it!

SOVIET UNION SEEKING MILITARY ALLIANCE ALL MOSLEM NATIONS

Since the termination of World War II in 1945, the Soviet Union "has left no stone unturned" to transform the 450,000,000 pro-United States Moslem population in Africa, the Middle East and Asia into an anti-United States 450,000,000 Moslem population in that strategic area. The success of the Soviet Union in that respect has been phenomenal. The support the Soviet Union gave to the United States-sponsored malicious United Nations so-called "recommendation" for the vicious so-called "partition" of Palestine was subtle strategy on the part of the Soviet Union, only for the purpose of driving an opening wedge between the United States and the 450,000,000 Moslem population in Africa, the Middle East and Asia, by United States "murder" of a Moslem state. The recent sale of large amounts of military equipment to Moslem nations by the Soviet Union confirms the intention of the Soviet Union since 1945 to win over the 450,000,000 Moslem population in Africa, the Middle East and Asia for their future conflict with the United States. The world knows only a very small fraction of what the Soviet Union has otherwise accomplished in their secret and sinister conspiracy to deprive the United States of use of that strategic area for air bases for "massive retaliation," and other military purposes, and to prevent the addition of this 450,000,000 manpower, and the critical natural resources of that strategic area to the war potential of the United States.

SOVIET UNION PLANS SABOTAGE MOSLEM MILITARY AID TO U.S.A.

The unjust 1948 extermination of the Moslem state of Palestine by the United States is the sole reason why the 450,000,000 Moslem population of Africa, the Middle East and Asia will be found in the camp of the Soviet Union. It will prove a tragic development if it proves to be irrevocable. The Soviet Union does not find it difficult to convince the 450,000,000 Moslem population in Africa, the Middle East and Asia that the rape of Palestine was planned, executed and financed by the world-wide net-work of international Zionist conspirators under United States direction. The Soviet Union is capitalizing on the predicament in which the United States finds itself for giving "aid and comfort" to the enemies of the 450,000,000 Moslem population in Africa, the Middle East and Asia, and for "aiding and abetting" the plot to wipe a Moslem state off the face of the earth for no other reason except that political leaders in the United States made a "deal" with the world-wide net-work of international Zionist conspirators to "trade" Palestine for the Zionist votes in the United States.

ZIONISM NOW PLUNGING NATION INTO ANOTHER KOREAN WAR

The mere presence at this time of United States armed forces in Palestine will unquestionably prove more than sufficient under existing tensions there to provoke and precipitate the open outbreak of World War III, and the participation of the United States in it. It is now time that fathers and mothers in the United States, and their sons and daughters, give more serious consideration to the frequent utterances by United States military and civilian leaders eminently qualified to analyze and evaluate this situation realistically. They are constantly warning the nation of this grave danger. These competent authorities on many recent occasions have strongly emphasized their belief that the United States cannot survive the catastrophic consequences of World War III and emerge from it an undefeated, independent and sovereign nation. They assert this is due in a large measure to the present unfavorable international relations of the United States, and to several domestic situations all created for that evil purpose by foreign agents.

ZIONISTS DICTATING NATION'S DISASTROUS FOREIGN POLICIES

The United States will seek for long but in vain to regain the sincere and loyal international cooperation of other nations so essential for continued world-leadership by the United States, until and unless the United States promptly takes effective measures for the restoration of all Palestine to all Palestine's rightful 1947 inhabitants, and for the repossession of all Palestine by all Palestine's lawful owners. The United States cannot escape full responsibility for the criminal act of "master minding" the corrupt conspiracy in United Nations which achieved the malicious and vicious so-called "partition" of Palestine, which so shocks the conscience of the truly honorable nations today, and is undermining the peace of the world.
